

Dear Apprentices - Hello and Welcome.

We are excited and honored to be meeting with you all for these next 10 months. We are eager for our upcoming retreat to learn of your interests and callings, and to start our journey together.

We love to offer Open Houses - which are optional - to have time for sharing more personally and to discuss wonderings. We hope you will be able to weave at least some of the one hour Open Houses into your schedule. Thank you for considering.

Also we are sending you the overview of the year. You may have already gotten this from the Center but we want you to have a copy of the monthly offerings - and the mentor/s who will present each month, and the dates and times for the optional Open Houses. You will find all this also on the Anamcara website which we update with the materials and guidance for each month.

May this second year of your time together bring you great insight and pleasure-deepening friendships and community.

So happy we are soon together.

Ann - Stan - Kevin
